Members also receive free sample written safety programs.

MEMBERSHIP BENEFITS (CONT'D)

EDUCATION

LCCA offers members up-to-date and informative training courses throughout the year. Classes help members work toward professional designations and help with business operations.

BIAW's Education Program assists local associations in planning educational programs to meet member needs and organizes regional conferences on issues related to the construction industry. Certification/Continuing Education classes include Washington State real estate and appraiser continuing education clock hour credits.

NAHB offers dozens of educational courses and seminars especially tailored for your needs as a building professional. These programs focus on practical training for newcomers and veterans alike, with lots of ideas and strategies you can use every day to improve your business and advance your career. Courses and seminars are offered in-person and online.

LCCA SCHOLARSHIP PROGRAM

Each year the LCCA awards scholarships to students pursuing a career in the building industry. Applicants must be recommended by an Association member.

BIAW WORKFORCE TRAINING

As housing construction growth continues, finding skilled workers to keep up with demand remains a challenge. In response to concerns of a labor shortage in the building industry, BIAW has launched a workforce development program to help members find employees ready to work and willing to learn.

BIAW has partnered with organizations to promote labor pool resources to members.

LCCA GOVERNMENT AFFAIRS

The LCCA Government Affairs Committee works year-round to address issues affecting the industry, such as the implementation of overreaching and egregious rules and legislation; fighting attacks upon Retro Plans, increased permit burdens, impact fees, and unreasonable environmental constraints, or excessive litigation. The LCCA educates our members with regard to the important civic matters that impact our industry. The Committee meets quarterly with local building officials and department directors to address concerns facing the construction industry in our county; anyone may attend these meetings.

BIAW LEGISLATIVE PROGRAM

The BIAW Legislative program encompasses various aspects of the legislative arena. BIAW's aggressive team of lobbyists work on members' behalf to pass legislation favorable to the home building industry with the ultimate goal of affordable housing for all citizens of Washington State.

NAHB POLITICAL ACTION

NAHB is an active participant on Capitol Hill and in the federal regulatory process, working hard to promote housing in America. Resolutions adopted by NAHB's Board of Directors touch on key housing issues such as removing regulatory barriers to building affordable housing, protecting property rights, providing tax relief for small businesses, promoting smart growth, and assuring the U.S. housing finance system remains strong. These resolutions inform staff and volunteer advocacy work, whether we're talking to federal legislators, writing comment letters on proposed regulations, or preparing the budget for the next fiscal year.

DISCOUNT PROGRAMS

LCCA Members have access to a few different discount and rebate programs to help them save money on products they already buy. These programs are detailed here.

Through the National Purchasing Partners, members receive discounts from Verizon Wireless. Corporate Plans receive 22% off eligible plans, plus free activation. Employees receive 18% off eligible plans. Plus additional savings on Data Features, and accessories. For more information on the program and/or eligibility questions, call Michael Brittingham, Verizon Wireless Representative at (503) 867-1134.

Additional brand discounts are available, visit <https://mynpp.com>

The Member Rebate Program is the result of using the combined buying power of the Builders in the Association, combined with many other State Associations, to qualify for the same Manufacturer rebates the nation's largest Builders receive. Both Builder and Remodeler companies, no matter how large or small, qualify for the program. The biggest perk? Money. And all for just remaining loyal to many of the country's leading Manufacturers you already use in all of your homes. You are not required to submit receipts and you do not have to change how you purchase products. BIAW does the paperwork, collects the money and mails you quarterly rebate checks directly!

- Receive the same rebates as the nation's "Top-10" Builders regardless of your volume
- Be rewarded for your loyalty by specifying the Manufacturers to your Subcontractors
 - No receipts needed
- Rebate Form that asks minimal information
